PLANT AND SOIL

B13

International Journal of Plant Nutrition, Plant Chemistry, Soil Microbiology and Soil-borne Plant Diseases.

Revue internationale de nutrition des plantes, de chimie végétale, de microbiologie du sol et des maladies des plantes en rapport avec le sol.

Internationale Zeitschrift für Pflanzenernährung, Pflanzenchemie, Bodenmikrobiologie und bodenbedingte Pflanzenkrankheiten.

Issued under the auspices of the

"Koninklijk Genootschap voor Landbouwwetenschap"

(*Royal Netherlands Society of Agricultural Science*)

Executive Editors: D. I. Arnon, Berkeley; J. Baeyens, Louvain; F. C. Gerretsen, Groningen; G. W. Harmsen, Groningen; E. G. Mulder, Wageningen; A. C. Schuffelen, Wageningen; F. Steenbjerg, Copenhagen.

Secretary: G. H. Arnold

Assistant Secretary: J. K. Smit

c/o Institute for Soil Fertility
Groningen, Netherlands

Consulting Editors; Wm. A. Albrecht, Columbia, Mo.; C. Arnaudi, Milan; L. Gisiger, Liebefeld-Berne; F. G. Gregory, London; A. J. de Groot, Groningen; W. R.C. Handley, Oxford; J. L. Harley, Sheffield; J. den Holder, Ghent; J. Lavollay, Paris; L. Leyton, Oxford; W. J. Lütjeharms, Bloemfontein; H. Lundegårdh, Uppsala; E. Melin, Uppsala; M. Ødelien, Ås; E. J. Petersen, Copenhagen; C. S. Piper, Adelaide; D. Snow, Reading; H. G. Thornton, Harpenden, Herts.; S. Tovborg Jensen, Copenhagen; A. I. Virtanen, Helsinki; S. A. Waksman, New Brunswick; F. W. Went, St. Louis; L. K. Wiersum, Groningen.

The Editors are - if necessary - advised by experts from the Staff of the Institute for Soil Fertility, Groningen

Druk: Koninklijke Drukkerij Van de Garde N.V., Zaltbommel

Plant and Soil

INTERNATIONAL JOURNAL OF PLANT NUTRITION,
PLANT CHEMISTRY, SOIL MICROBIOLOGY AND
SOIL-BORNE PLANT DISEASES

CONTENTS — TABLE DES MATIÈRES — INHALT

PAGE

M. L. Adil, Y. V. Kathavate and Abhiswar Sen, Changes in soil associated with continuous growth of some vegetation 73

C. L. Banath and N. H. Monteith, Soil oxygen deficiency and sugar cane root growth 143

P. H. T. Beckett, J. B. Craig, M. H. M. Nafady and J. P. Watson, Studies in soil potassium V. The stability of Q/I relations 435

E. G. Bollard, A comparative study of the ability of organic nitrogenous compounds to serve as sole sources of nitrogen for the growth of plants 153

N. G. Cassidy, A rational method for recording and comparing concentrations of plant constituents that are water soluble, with particular reference to chloride and potassium 372

J. A. Chaudhry and A. H. Cornfield, *Short communication.* Determination of sulphide in waterlogged soils 474

J. H. Clarke, Studies on fungi in the root region. V. The antibiotic effects of root extracts of Allium on some root surface fungi 32

R. T. Clarke, The estimation of optimum applications of a quantitative factor to crops grown in rotation 385

W. O. Enwezor, *Short communication.* The biological transformation of phosphorus during the incubation of a soil treated with soluble inorganic phosphorus and with fresh and rotted organic materials 463

G. C. Gerloff, D. G. Moore and J. T. Curtis, Selective absorption of mineral elements by native plants of Wisconsin 393

P. C. Ghosh, A comparison of some chemical tests for available soil nitrogen 65

P. M. Giordano, *Short communication.* Uptake of molybdenum at two pH levels as influenced by anaerobiosis . . . 467

V. O. Grasmanis and G. W. Leeper, Toxic manganese in near-neutral soils 41

V. O. Grasmanis and D. J. D. Nicholas, *Short communication.* Uptake of nitrate by Jonathan/MM 105 apple trees 461

H. B. Gunner, B. M. Zuckerman, R. W. Walker, C. W. Miller, Karl H. Deubert and Ruth E. longley, The distribution and persistence of diazinon applied to plant and soil and its influence on rhizosphere and soil microflora 249

R. F. Harris, O. N. Allen and G. Chesters, Microbial colonization of soil aggregates as affected by temperature 361

T. F. Hering, An automatic soil-washing apparatus for fungal isolation 195

A. A. Holland, Studies on microbial antagonism in the establishment of clover pasture I. The number of species and percentage frequency of occurrence of the major fungi 238

A. A. Holland and C. A. Parker, Studies on microbial antagonism in the establishment of clover pasture II. The effect of saprophytic soil fungi upon *Rhizobium trifolii* and the growth of subterranean clover 329

Paul B. Hoyt, Chlorophyll-type compounds in soil I. Their origin 167

Paul B. Hoyt, Chlorophyll-type compounds in soil II. Their decomposition 313

Hans Jenny, Pathways of ions from soil into root according to diffusion models 265

K. W. Lee, A. C. Caldwell and C. E. Clapp, RNA, DNA and other phosphorus fractions in soybeans as affected by high phosphorus nutrition 406

A. J. McGregor and G. C. S. Wilson, The influence of manganese on the development of potato scab 3

W. H. Moelker, *Short communication.* Photoelectric equipment for a quick determination of leaf areas 305

A. H. Montasir, H. H. Sharoubeem and G. H. Sidrak, Partial substitution of sodium for potassium in water cultures 181

A. W. Moore and S. A. Adetunji, *Short communication.* Chlorosis in plants growing in latosolic soil 309

M. El Nashar, A. K. Helmy, M. Naguib Hassan and M. M. Elgabaly, Effect of divalent and other ions on potassium uptake by barley roots 290

S. A. Navasero and A. Tanaka, Low-light-induced death of lower leaves of rice and its effect on grain yield 17

Ruth Neuman and Yoav Waisel, The uptake of iron by seedlings of *Eucalyptus camaldulensis* Dehn 341

P. H. Nye, The effect of the nutrient intensity and buffering power of a soil, and the absorbing power, size and root hairs of a root, on nutrient absorption by diffusion 81

J. J. Oertli, Use of optical spectroscopic N15-analyses to trace a specific nitrogen application in tobacco plants . . . 49

N. Okafor, The ecology of micro-organisms on, and the decomposition of, insect wings in the soil 211

L. Oldenkamp and W. Smilde, *Short communication.* Copper deficiency in Douglas fir (*Pseudotsugamenziesii* (Mirb.) Franco) 150

A. V. Petersburgsky and P. M. Smirnov, Ammonium fixation by some soils in the USSR and the availability of this ion to plants 119

M. H. van Raalte, In Memoriam Victor Jacob Koningsberger 1

A. D. Rovira and G. D. Bowen, The effects of micro-organisms upon plant growth. II Detoxication of heat-sterilized soils by fungi and bacteria 129

S. Shah Singh and B. Rama Moorthy, Indices of calcium availability and degree of dispersion in soils 297

W. H. Smith and J. L. Peterson, The influence of the carbohydrate fraction of the root exudate of red clover, *Trifolium pratense* L., on *Fusarium* spp. isolated from the clover root and rhizosphere 413

S. C. Srivastava, *Short communication.* The effect of Telodrin on nitrification of ammonia in soil and its implication on nitrogen nutrition of sugarcane 471

A. Tanaka, Mutual shading as a factor limiting the yield response of rice to application of nitrogen, phosphorus and potassium fertilizers 201

Hirofumi Tanaka, Response of *Lemna pausicostata* to boron as affected by light intensity 425

M. Teuber, Über die Zerstörung der cytoplasmatischen Membran von *Saccharomyces cerevisiae* durch methylisothiocyanathaltige Bodenentscheuchungsmittel 106

L. R. Townsend and C. R. Blatt, *Short communication.* Lowbush blueberry: evidence for the absence of a nitrate reducing system 456

Wen Lin Yuan and F. N. Ponnamperuma, Chemical retardation of the reduction of flooded soils and the growth of rice 347
